

Aman Choudhary

Data Scientist

✉ abamanchoudhary4717@gmail.com ☎ +91-9166824717 📍 Jaipur, Rajasthan

Profile

Data Scientist with a strong foundation in Python, SQL, statistics, and machine learning, with hands-on experience in data analysis, predictive modeling, and visualization. Skilled in transforming raw data into meaningful insights through data cleaning, exploratory analysis, and machine learning techniques. Passionate about solving real-world business problems using data-driven solutions and continuously expanding analytical and technical expertise.

Education

Data Science Diploma, *RNS Group of Companies, Jaipur*

MCA, *Manipal University Jaipur*

B.SC B.ED, *Bhagwant University Ajmer*

12th, *Govt. Sr. Sec. School Kishangarh*

Skills

Programming

Python, SQL

Visualization

Power BI, Matplotlib, Seaborn, Dashboard Creation

Data Analysis

EDA, Data Cleaning, Data Wrangling, Statistical Analysis

AI & Advanced Concepts

NLP, Deep Learning, Prompt Engineering, Generative AI Basics, Regex

Libraries & Frameworks

Pandas, NumPy, Scikit-learn, TensorFlow, Keras

Machine Learning

Regression, Classification, Clustering, Model Evaluation, Feature Engineering

Database

MySQL, SQL Queries, Joins, Aggregations

Development & Tools

Git, GitHub, Jupyter Notebook, VS Code, Google Colab

Professional Experience

Data Scientist, *RNS IT Solution Pvt. Ltd.*

06/2025 – 07/2026
Jaipur, Rajasthan

- Built and deployed machine learning models for regression and classification using Python and Scikit-learn.
- Cleaned, analyzed, and prepared data through preprocessing, feature engineering, and exploratory data analysis (EDA).
- Created interactive Power BI dashboards to track KPIs and support business decision-making.
- Wrote SQL queries and managed MySQL databases for data analysis and reporting.
- Improved model performance through feature selection, hyperparameter tuning, and evaluation.

- Used Git and GitHub for version control and maintained clear technical documentation.

Projects

AI Fitness Trainer System

- Developed an AI-powered fitness trainer using Python, OpenCV, and MediaPipe for real-time pose estimation and exercise tracking.
- Implemented automatic repetition counting and posture correction for exercises such as squats, push-ups, and bicep curls.
- Built a user-friendly interface to provide live feedback and track workout performance.

AI Chatbot

- Developed an AI chatbot using Python, NLP, and Large Language Models to provide intelligent and context-aware responses.
- Integrated FastAPI to build REST APIs for seamless chatbot communication with web applications.
- Implemented conversation memory and prompt engineering to improve response accuracy and user experience.

Customer Churn Prediction System

- Developed a Customer Churn Prediction System using Python and Machine Learning to identify customers likely to leave a service.
- Performed data preprocessing and exploratory analysis using Pandas, NumPy, Matplotlib, and Seaborn.
- Built predictive models with Scikit-learn to improve churn prediction accuracy and customer retention insights.

Power BI Sales Dashboard

- Designed an interactive Power BI dashboard to analyze sales, revenue, customer trends, and business performance.
- Cleaned and transformed data using Power Query and created KPIs using DAX measures.
- Built dynamic reports with filters, slicers, and visualizations to support business decision-making.

Smart Crowd Detection System

- Developed a real-time crowd monitoring system using Python, YOLOv8, and OpenCV for people detection and counting.
- Implemented AI features including intrusion detection, fall detection, and anomaly monitoring from live video streams.
- Built a monitoring dashboard with event logging and real-time alert generation.

Certificates

Introduction to Artificial Intelligence (AI)

IBM | Coursera

Foundations: Data, Data, Everywhere

Google | Coursera

Microsoft Power BI for Business Intelligence

Udemy | Maven Analytics

Data Analytics Job Simulation

Deloitte

Certificate of Accomplishment (SQL Advance)

HackerRank

Microsoft Excel: Beginner to Advance

Udemy | Kyle Mulka

Exploratory Data Analysis for Machine Learning

IBM | Coursera

Complete Data Science Bootcamp

Udemy | Krish Naik
